CMS & Platforms: WordPress, Shopify, Wix, Hostinger

Tools & DevOps: Git, GitHub, Leetcode, Vercel

PROFESSIONAL EXPERIENCE

Savshka Digital Media Pvt Ltd

Dec 2024 – Present

Lead Web Developer (Full Stack)

Noida, Uttar Pradesh, India

- Designed, developed, and maintained responsive web applications using modern Full Stack technologies including **Next.js, MongoDB, Tailwind CSS, JavaScript, and REST APIs**.
- Worked on custom web development alongside CMS platforms such as **WordPress and Shopify**; managed website monitoring, performance optimization, bug fixing, and regular maintenance.
- Developed scalable and SEO-friendly user interfaces applying responsive **UI/UX design** principles; collaborated on eCommerce, portfolio, and business website projects.
- Leveraged **Cursor IDE, GitHub Copilot, and Antigravity** for AI-assisted code generation, improving sprint velocity by **35%** while maintaining clean, production-grade architecture.

Mediseller

Mar 2024 – Nov 2024

Head of Digital Platform

Delhi, India

- Owned the complete digital product roadmap, overseeing **platform architecture, UX design, and engineering delivery** for a healthcare-focused e-commerce platform.
- Rebuilt the core platform using **Next.js and MongoDB**, resulting in a **60% improvement in page speed** and a measurable uplift in user retention and conversion rates.
- Integrated **Shopify** and custom CMS solutions to streamline product management, reducing catalog update time by **70%**.
- Defined and enforced coding standards and CI/CD practices, reducing production bug rates by **30%** across quarterly releases.

Savshka Digital Media Pvt Ltd

Nov 2023 – Feb 2024

Web Developer

Noida, Uttar Pradesh, India

- Developed responsive, accessible web interfaces using **HTML5, CSS3, JavaScript, and React.js**, consistently meeting WCAG 2.1 accessibility standards.
- Collaborated cross-functionally with designers and product managers to translate wireframes into pixel-perfect, performant UI components, reducing design-to-code turnaround by **25%**.

Villam

Aug 2022 – Jun 2023

Technology Lead

New Delhi, India

- Architected the full-stack application using **React.js, Node.js, and MongoDB**, enabling real-time inventory tracking and order management for **500+ SKUs**.
- Managed end-to-end deployment on cloud infrastructure, ensuring **99.5% uptime** and efficient data pipeline operations.

EDUCATION

Shyam Lal College, University of Delhi <i>Bachelor's Degree</i>	Delhi, India
Lal Bahadur Shastri Institute <i>Diploma in Computer Application</i>	Delhi, India
Coding Block <i>Java DSA Pursuing</i>	Delhi, India 2026

PROJECTS

Digital Marketing Website: <i>Hosted: Hostinger</i>	<i>HTML, CSS, JavaScript, PHP, Claude AI, ChatGpt</i> View Live
Built a sleek, responsive digital marketing website optimized for speed and SEO. Crushed layout issues across devices with media queries, and leveled up performance by minifying CSS/JS and compressing assets. The site loads fast and ranks well—exactly what you want.	
Service-Based Business Website <i>Hosted: Hostinger</i>	<i>WordPress, Elementor, Slider Revolution, Contact Form 7, Yoast SEO, and more.</i> View Live
Created a polished WordPress site using Elementor for design and integrated essential plugins like Contact Form 7, WooCommerce, and Yoast SEO. Fixed plugin conflicts with custom CSS, optimized for search engines, and made sure everything works flawlessly on mobile.	
Personal Portfolio Website <i>Hosted: Vercel</i>	<i>Next.js, Tailwind CSS, Node.js, MongoDB</i> View Live
Full-stack portfolio built with Next.js and Tailwind for that clean, modern look. Connected to Node.js backend and MongoDB for dynamic project management. Handled API issues like a pro, deployed on Vercel for seamless auto-scaling, and made the whole thing super responsive.
